

## Call for participation in the ERASMUS+ project

### FLA.M.Eu.

Fla.M.Eu. is a small-scale Erasmus+ project lasting 24 months, with a grant value of EUR 60,000.00, involving two partners: the Increase association, as project leader based in Alpignano (Turin) and NBDN, a Bulgarian association (Razlog, Sofia) as partner.

The project aims to identify adults capable of establishing a direct relationship with the young Neet, perceiving and understanding their needs, both expressed and unexpressed, in order to identify the most appropriate forms of support. A flexible figure, able to customise the growth pathway as much as possible according to the characteristics of the young people involved.

The person we want to train is therefore a mix of professional skills and human sensitivity and this is why we have defined him or her as a FLANK MOTIVATOR, because it motivates the young person but also supports him or her in a path of growth.

Neet people can be defined as "disadvantaged" young adults, either because of their background (family, geographical, social/cultural status and or nationality) or because of their actual condition (not employed, not in education or training) which places them on the margins of society.

### **COURSE CONTENTS – JULY 2022 – MARCH 2024**

FLA.M.Eu aims at creating a model of support for Neet in an adult context of reference different from those usually operating in formal and institutional places.

#### Activities
